To whom it may concern,

FIBA – The International Basketball Federation is developing 3x3 as a stand-alone discipline and has requested its inclusion in the Olympic Programme. 3x3 is a simplified version of basketball, played on a half-court with one hoop only and three players a side.

The road map for 3x3 includes an integrated 3x3 Competition Network that connects all FIBA-endorsed 3x3 tournaments and leads to the FIBA 3x3 World Tour ([www.3x3worldtour.com](http://www.3x3worldtour.com)). All players participating in FIBA-endorsed 3x3 events are offered an individualized profile page and are listed in the 3x3 Individual World Ranking, on [3x3planet.com](http://3x3planet.com).

The best teams participating in FIBA-endorsed tournaments have the chance to participate in the 3x3 World Tour, a competition comprised by five stages around the world and one final.

FIBA monitors the 3x3 endorsed activities through the aforementioned Competition Network. Our records show that Basketball Federation of Serbia is a registered 3x3 organizer since 08 June 2015 and has planned or organized 8 events. Our database lists Nenad Tanasijevic in Basketball Federation of Serbia's account.

Any support offered to Basketball Federation of Serbia / Nenad Tanasijevic will be very much appreciated by FIBA and will help to further develop 3x3, that is already the number one urban team sport of the world.

For further information on the content of this letter or regarding 3x3 in general, please check [fiba.com/3x3](http://fiba.com/3x3) or email to [3x3@fiba.com](mailto:3x3@fiba.com).

Regards,

Robert Rieblinger  
FIBA 3x3 Development Manager
